

Getting API Credentials

Tesco Mirakl

The Tesco marketplace integration needs 3 pieces of information for you to enter into NCompass:

- API Key
- API Endpoint
- Store ID

This guide will cover how to get this information so you can enter it into the corresponding configs on NCompass

Tesco API Credentials

[Tesco - Sign in](#)

Once signed in we can get all the information we need

1 - API Endpoint

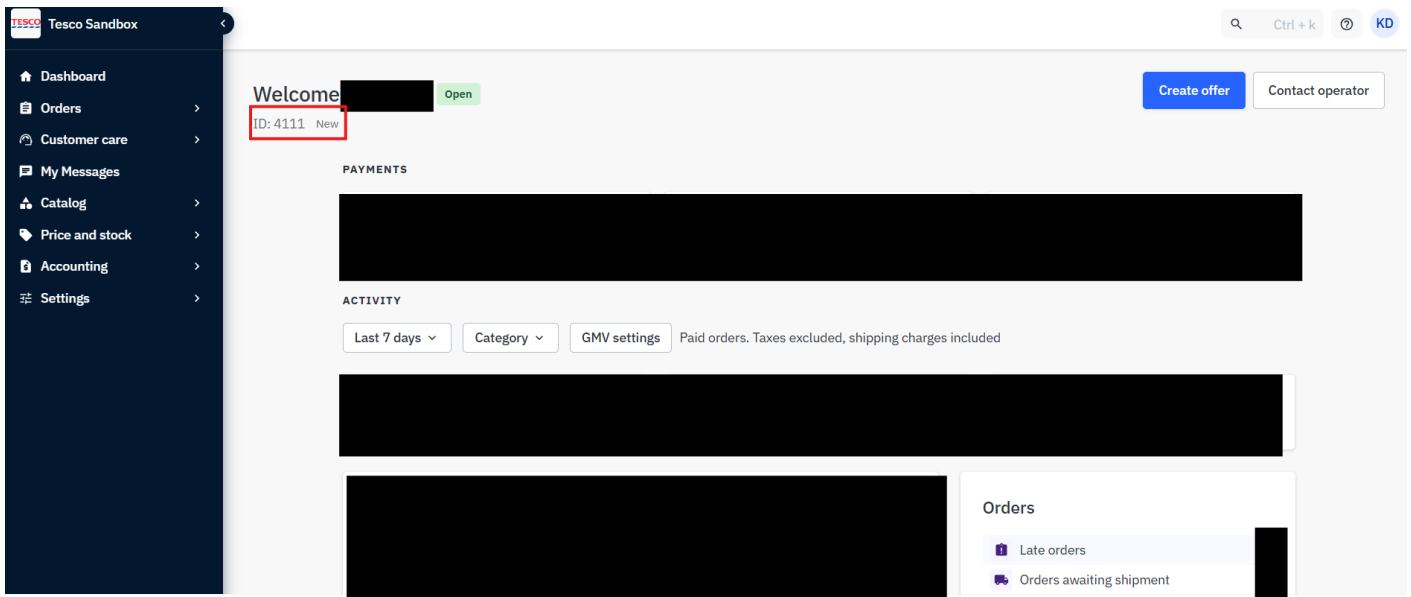

The API endpoint is the standard Tesco API Endpoint as listed in the documentation. **take note of this URL**

<https://tescouk-prod.mirakl.net/api>

2 - Store ID

The Store ID is gathered from the Tesco Store dashboard, this is required for any API calls to Tesco.

After signing in, you will be redirected to the following screen.

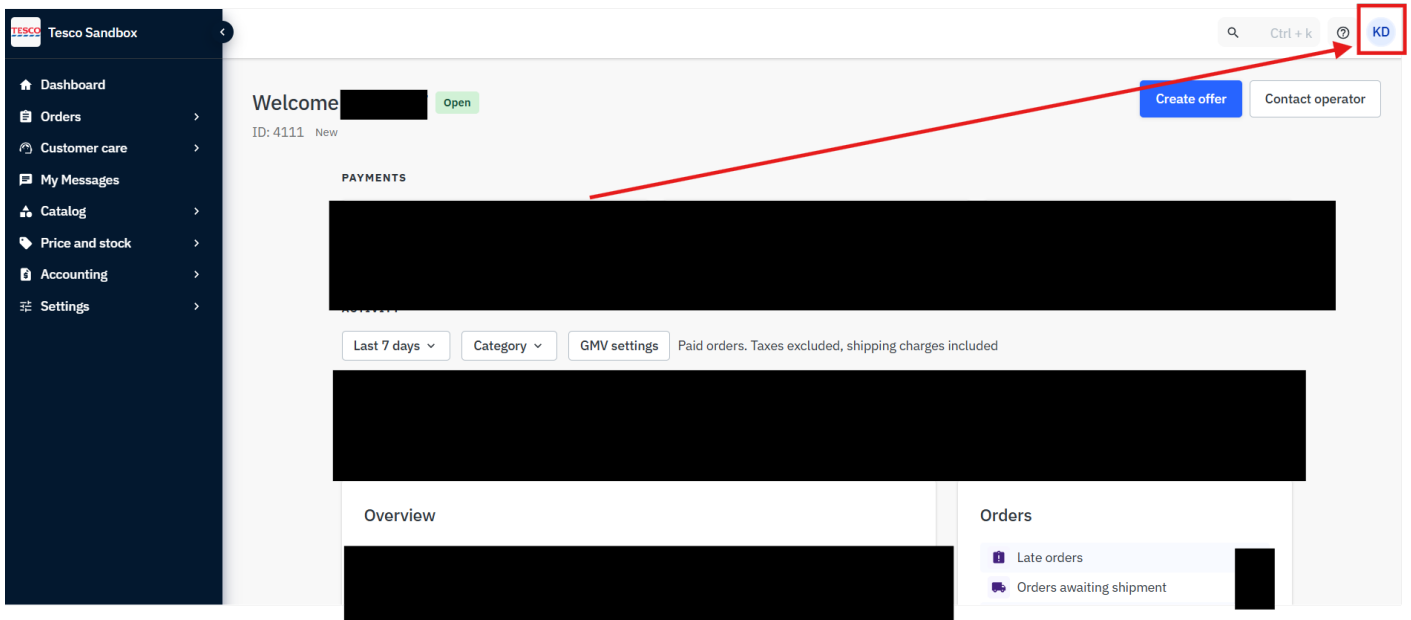

You will need to take note of the location in the screenshot above, **this is the store ID**

Store ID's differ between companies

3 - API Key

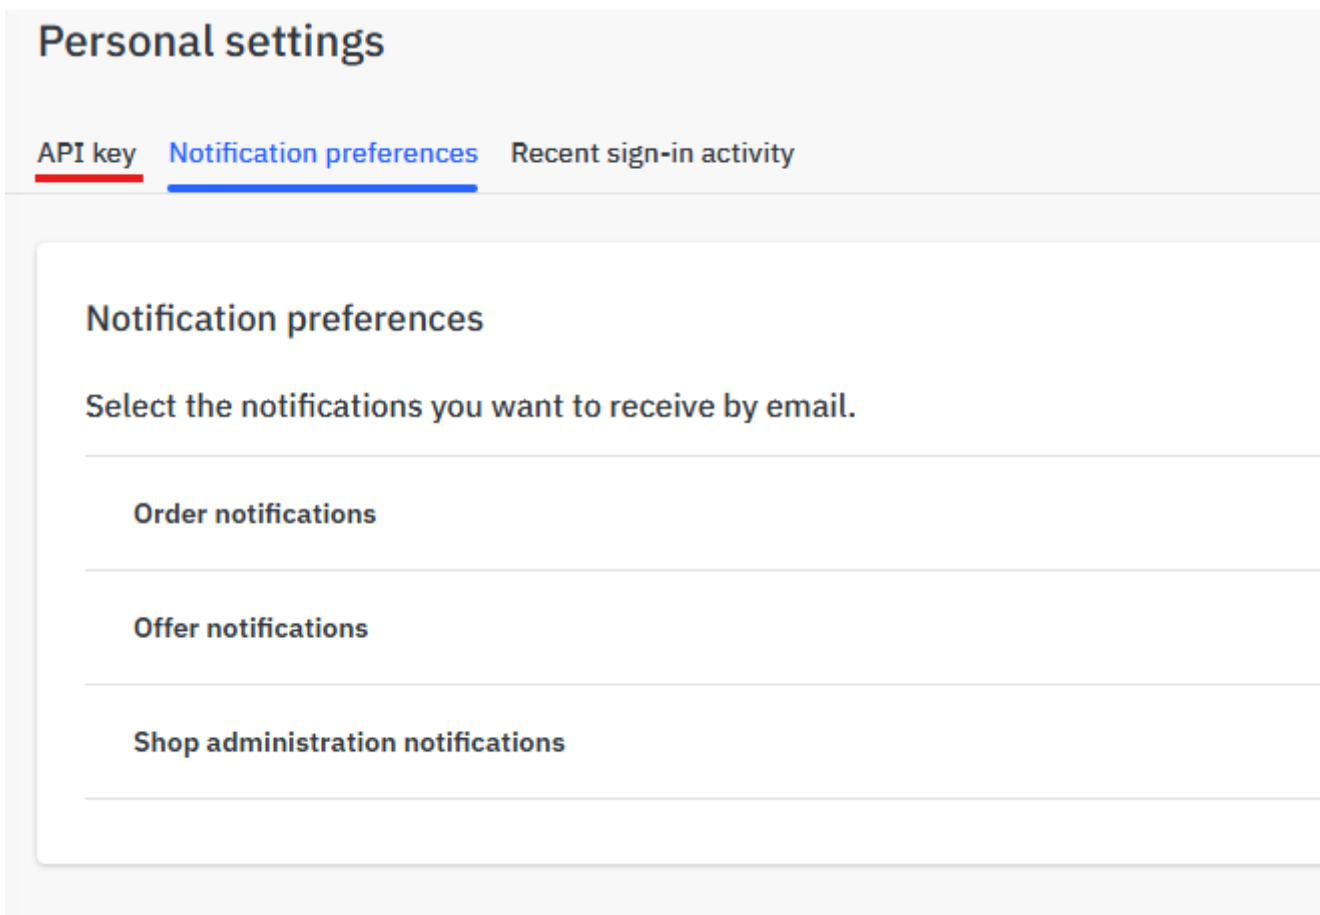

Main Dashboard

Stay on the Dashboard for Tesco. You will need to press on the profile icon in the top right, then press on "Personal settings"

Personal Settings Page

once on this page, press on API key

Generate API Key

After you reach the API Key page, simply press Actions and on Generate new key. This will create an API key for the marketplace.

API key

Actions ▾

 Copy API key

Copy the API Key to clipboard and store somewhere safely for the time being. **This has to be kept secure.**

You now have the API key and other details and can move on
